RE: New List Price Sheet
Effective Date January 2, 2019

As a result of increasing raw material and operating costs, Conduit Pipe Products is announcing a new list price sheet. The new list price sheet, 119, supersedes list price sheet 418 and represents a weighted average increase ranging from 2-15% dependent upon the product group and diameter for all Conduit Pipe Products material.

List price sheet 119 is effective with all shipments after December 28th. Conduit Pipe Products reserves the right to limit customer orders based on historical sales data. Please advise the Conduit Pipe Products sales department if this policy requires a change to your previously placed orders.

The Conduit Pipe Products list price sheet, 119, may be printed from our web site; www.conduitpipe.com after November 30th.

Terms Revision: Conduit Pipe Products has revised terms to 2% 30 days/Net 31 days effective with the increase.

On behalf of the Conduit Pipe Products employees, thank you for your continued support and valued business.

Sincerely,

Ellen Robb
Sales Manager
