RE: New List Price Sheet
Effective Date July 5, 2016

As a result of increased operating and raw material costs, Conduit Pipe Products is announcing a new list price sheet. The new list price sheet, 716, supersedes list price sheet 915 and represents a weighted average increase of 6% for all Conduit Pipe Products material.

List price sheet 716 is effective with shipments after July 4th. Conduit Pipe Products reserves the right to limit customer orders based on historical sales data. Please advise the Conduit Pipe Products sales department if this policy requires a change to your previously placed orders.

The Conduit Pipe Products list price sheet, 716, may be printed from our web site; www.conduitpipe.com after June 3rd.

On behalf of the Conduit Pipe Products employees, thank you for your continued support and valued business.

Sincerely,

Ellen Robb
Sales Manager
