RE: New List Price Sheet CPP--720
Effective Date July 6, 2020

As a result of increasing raw material and operating costs, Conduit Pipe Products is announcing a new list price sheet. The new list price sheet, 720, supersedes list price sheet 119 and represents a weighted average increase of 5% for all Conduit Pipe Products material.

List price sheet 720 is effective with all shipments after July 3rd. Conduit Pipe Products reserves the right to limit customer orders based on historical sales data. Please advise the Conduit Pipe Products sales department if this policy requires a change to your previously placed orders.

The Conduit Pipe Products list price sheet may be printed from our web site; www.conduitpipe.com after June 15th.

On behalf of the Conduit Pipe Products employees, thank you for your continued support and valued business.

Sincerely,

Ellen Robb
Sales Manager
