PRODUCT SPECIFICATION BULLETIN

CERTIFICATE of COMPLIANCE

ELECTRO ZINC PLATED PRODUCTS

We hereby certify that the products electro zinc plated by Capitol Manufacturing and CapProducts Ltd. conform to the specified requirements of ASTM B633, Type III, SC 2. The electro-deposited coating is of pure zinc and does not contain lead, cadmium, mercury, or any other metal alloy that is liquid at ambient temperatures during processing or while in our possession.

We hereby certify that all of our electro-zinc plated pipe nipples, fittings, and merchant couplings manufactured by Capitol Manufacturing are considered "lead free" (contains less than 8.0% lead) as defined by the Safe Water Drinking Act of 1998. These products are considered "in line" piping and are not required to meet NSF Standard 61 Section 9 under the Safe Water Drinking Act of 1998.

In addition, we certify that all electro-zinc plated forged steel fittings, pipe nipples, merchant couplings and other electro-zinc galvanized coated products conform to the California AB 1953 Annex G and VT Vermont's House Bill ACT 193 that requires a maximum lead content of 0.25%.

These products are manufactured in accordance with the Capitol Manufacturing Certified Quality System Program conforming to ISO 9001:2008. These products are inspected by independent quality control personnel conforming to the requirements of EN 10204 Section 3.1B. These products were not exposed to mercury or any other metal alloy that is liquid at ambient temperatures during processing or while in our possession.
