### PRODUCT SPECIFICATION BULLETIN

### CERTIFICATE of COMPLIANCE

#### **LOW LEAD – BRASS ADAPTER PIPE NIPPLES AND INSERT COUPLINGS**

We hereby certify that all of our brass adapter pipe nipples, insert couplings, well seal elbows, and venturi adapters manufactured by Capitol Manufacturing and CapProducts Ltd. are considered "lead free" (contains less than 8.0% lead) as defined by the Safe Water Drinking Act of 1998. These products are considered "in-line" piping and are not required to meet NSF Standard 61 Section 9 under the Safe Water Drinking Act of 1998.

We further certify that the red brass adapter nipples and electroplated insert couplings manufactured by Capitol Manufacturing and CapProducts Ltd. contain less than 0.05% lead as mandated by ASTM B43. Therefore, these products conform to the California AB 1953 Annex G and VT Vermont's House Bill ACT 193 that requires a maximum lead content of 0.25%.

These products are manufactured in accordance with the Capitol Manufacturing and CapProducts Ltd. Certified Quality System Program conforming to ISO 9001:2008. These products are inspected by independent quality control personnel conforming to the requirements of EN 10204 Section 3.1B. These products were not exposed to mercury or any other metal alloy that is liquid at ambient temperatures during processing or while in our possession.
